

RAZOR PANEL

Experience of over 40 years...

Razor Panel is an ideal fence system that offers aesthetic appearance and safety together. The welded panel and razor are produced in one piece. Compare to standard welded panel it is more deterrent and serve for medium security applications thanks to the razors on top. As a result of "all in one" system, razor panel save time & cost on transportation and installation. The fence system provides long lifetime due to powder coating on galvanized surface. Strongly recommended to use Razor Panel with EASY fixK-DAG® Steel Post as a perfect safety solution.

NANO COATING

NANO coating is a special technology that increases the adhesion performance of the coating to the metal surface and creates pores in NANO sizes. Thanks to these pores, the powder coating adheres with high performance on metal surface.

Advisable Post and Fixation Systems

Self-Locking

EASY fix K-DAG® STEEL POST
Easy-Fix K-DAG Steel Post (90x90mm) has been designed to perform maximum strength with minimum material to keep it economically. The panels are fixed to post without accessories such as screws, bolts, clips or clamps. As a result it avoids damage on materials during fastening. Slots are at every 100 mm and each post is covered with a plastic cap.
